Boreal Design Inukshuk (Single) \$1100

The Inukshuk, combining elegance and performance, is unquestionably the fastest kayak in its category. Its long waterline and tapered contour allow the kayak to accelerate quickly and track beautifully, while the upswept bow provides buoyancy when paddling in waves. A moderate rocker makes the kayak very agile while performing a lean turn. This comfortable and spacious kayak features a low profile offering minimal wind resistance, making the Inukshuk easy to maneuver.

Boreal Design Muktuk (Single) \$900

The Muktuk's low profile offers plenty of thigh support, making it ideal for small to medium-sized paddlers. Its shape generates minimal wind resistance, and the kayak is highly responsive during turns. A tapered contour adds speed to a craft that is stable, comfortable and easy to paddle. For closer adjustment, thigh braces may be added as an option.
